Dear Parents & Guardians,

AUSTRALIAN MATHS COMPETITION:

I have received in the mail, information about the Australian Mathematics Competition, sponsored by the Commonwealth Bank, and would like to offer the opportunity for students at Bibbenluke to take part.

The competition is for students in Yr 3 and above and takes place on Friday, 8th August. This will entail a cost to families of $6.00 per child entered.

There is also availability for students to take part in a ‘Challenge Stage’ program, which is an extension program for self motivated students who may be interested. This program is taken independently by students, as a project which students would have as their assigned homework over a three week period. Students are free to ask for any assistance they need from teachers, but are required to do the work and present their results to teachers by a given date. The cost of this program is $16.90 per student entered and would be covered by the school.

Could parents of interested students please let me know by the end of this week so that I can register to receive materials needed for the challenge as soon as possible.

It’s SHOW ART time again and this year’s theme is “Let’s keep it local”. We have decided to do an activity which requires the students to have two photos each (landscape orientation) of a scene at, or near their place. These photos will need to be printed off onto A4 paper. This can be done at school, but we will need the photos to be brought in on flash drive. Emailed photos may not be of high enough quality.

Could we please have these photos by Tuesday next week at the latest. If you don’t have access to a flash drive or a digital camera you can borrow the school camera.
The Thirteen Story Treehouse:

During week 3, Term 2, Bibbenluke students will have the opportunity to participate in an excursion to Canberra Theatre to see 'The Thirteen Story Treehouse' live on stage. The cost of this will be covered by the school. Exact day and date TBA.

Students Write..............

Last week at school we were doing touch typing. We are all practising using our left hand. We are doing so well at it!

My group in maths were doing "bridging". It helps us add quickly in our heads. We are good at it.

In art we have been doing cartooning. This time we were practising doing bodies in different positions on our characters.

On Fridays we all so reading box in the morning. We read a card and answer questions about the text. This helps us to develop comprehension strategies.
